Total pressure gauges

New Pfeiffer Vacuum CenterLine

Pfeiffer Vacuum expanded its product portfolio for total pressure measurement and added a new family of measurement instruments to the product program. In addition to the existing DigiLine, ActiveLine, and ModulLine series, we are now offering new CenterLine gauges, which are compatible with existing active gauges from other manufacturers*.

Your advantage: Dimensions, connections, and output signals are 100 % compatible. You can easily replace or supplement your existing equipment with products from the Pfeiffer Vacuum CenterLine series.

CenterLine uses state-of-the-art controllers. They allow communication via USB and Ethernet interfaces, and their brilliant LCD screen makes it easier to read the measured value. The gauges are automatically detected by the controller, which makes for safe and easy installation. In addition to the analog output, some gauges have set points for better process control.

Also worthy of special mention is the FullRange® gauge PTR 91. This gauge reduces the magnetic field of the cold cathode, which is present due to the inherent principle involved, to a minimum. The innovative design of the measuring chambers extends the service life considerably. A removable dual chamber ensures easy and cost-effective maintenance, which can easily be performed by the user.

* In case of any questions regarding compatibility, please ask your local sales contact.

CenterLine contains:

CenterOne, CenterTwo, CenterThree:	Controller with one to three measurement channels
TTR 91 and TTR 96:	Pirani gauges
TTR 101:	Pirani/Capacitance gauges
ITR 90:	Pirani/Bayard-Alpert hot cathode gauges
PTR 91:	Pirani/cold cathode gauges
PTR 225 and PTR 237:	Penning gauges
CCR 36x and CCR 37x:	Capacitance gauges

You can also obtain the appropriate accessories (e.g., cables) and spare parts as well as pressure switches PS 113 A and PS 115 from us.

Pressure switches and accessories

PS 113 A and PS 115 pressure switches

Further accessories

Type	Order number
PS 115, pressure switch DN 16 ISO-KF, 0.5-2000 mbar	PT R02 110
SV 110, switching amplifier for PS 115	PT R02 111
Differential pressure adapter DN 16 ISO-KF for PS 115	PT 120 171 -T
PS 113 A, pressure switch DN 16 ISO-KF, 3 m cable	PT R02 120
Clamping ring DN 10/16 ISO-KF, elastomer seal	130BSR016
Centering ring PTFE with FPM O-ring	132ZAR016

Further types on request

Type	Order number
Adapter plate for rack integration 2HE/3HE	PT 441 482
Centering ring with filter 4 µm, DN 16 ISO-KF	PT 120 132 -T
Centering ring with filter 4 µm, DN 25 ISO-KF	PT 120 036 -T
Centering ring with filter 4 µm, DN 40 ISO-KF	PT 120 037 -T
Centering ring with filter 20 µm, DN 16 ISO-KF	PF 117 216 -T
Centering ring with filter 20 µm, DN 25 ISO-KF	PF 117 225 -T
Centering ring with filter 20 µm, DN 40 ISO-KF	PF 117 240 -T

Further accessories on request

Customer benefits

- Easy integration into existing installations with measurement technology from other manufacturers
- State of the art control units, e.g., with USB and Ethernet interface
- Complete series, covering the entire vacuum range
- Space-saving installation thanks to a compact design
- Optimum cost-benefit ratio
- Universally applicable thanks to integrated electronics
- Additional functions through set points directly on the gauge
- Easy self-diagnosis
- Prevention of installation errors thanks to controllers with automatic gauge detection

VACUUM SOLUTIONS FROM A SINGLE SOURCE

Pfeiffer Vacuum stands for innovative and custom vacuum solutions worldwide, technological perfection, competent advice and reliable service.

COMPLETE RANGE OF PRODUCTS

From a single component to complex systems:

We are the only supplier of vacuum technology that provides a complete product portfolio.

COMPETENCE IN THEORY AND PRACTICE

Benefit from our know-how and our portfolio of training opportunities!

We support you with your plant layout and provide first-class on-site service worldwide.

Are you looking for a
perfect vacuum solution?
